

CLP Mastery Accountability Programme Autumn 2022

Date and time	What happens
Deadline to sign up! Friday 23rd September 2022, 12 noon	Each meeting is for discussing the module you've just completed, trainees need to join by this date to be able to look round the course and tools, and complete the first module ready for the meeting. (<i>Top tip -sign up early to give yourself plenty of time!</i>)
1 Wednesday 28 th September 2022, 2pm	Introducing you to your fellow trainees; how the sessions work; feedback from Module 1, What you need to know first ". Questions and comments
2 Wednesday 5 th October 2022, 2pm	Modules 2 Identify applicable product regulations for your range & 3; Identify your product . Questions!
3 Wednesday 12 th October 2022, 2pm	Module 4, Is your product legal? Questions! (no such thing as a silly question)
4 Wednesday 19 th October 2022, 2pm	Modules 5, Research your product This is a key skill set, the amount and quality of data is huge. Questions!
5 Wednesday 26 th October 2022, 2pm	Module 6, Classify your product from first principles ; The first key part of classifying. Questions!
6 Wednesday 2 nd November 2022, 2pm	Module 7, Classify your mixture on the basis of its components ; The other key part of classifying, letting you "see" inside software algorithms. Questions!
7 Wednesday 9 th November 2022, 2pm	Module 8; Labelling ; The CLP label and other relevant information (trickier than people think). Questions!
8 Wednesday 16 th November 2022, 2pm	Module 9, Read and review existing SDSs ; (another key skill set). Questions!
9 Wednesday 23 rd November 2022, 2pm	Module 10, The SDS Risk Assessment ; Questions! The key to including all relevant information on your SDS
10 Wednesday 30 th November 2022, 2pm	Module 11, Compile your SDS ; Being able to produce a manual SDS is essential, tools to help. So much more than just CLP content. Questions!
11 Wednesday 6 th December 2022, 2pm	Module 12, Notify your Product for CLP ; Module 13, Keep your Product Up to Date . Questions! And your certificate

"It's been pleasure to attend the class and invest my time in this very in-depth master class. I enjoyed going through all the modules and it's practice areas which I could then apply to quizzes at the end of each module. I loved to participate in our discussion of the results (of each participants) and finding out that every person have different approach to problem solving and also have different point of views to various CLP topics."

Big thank you of course goes also to all your team, especially to Ali who's unbelievably broad knowledge (and memory!) never stop impressing me." Zuzana Hovorka, Bartoline, 12th September 2022
